

Check your SS

1. For online wallet such as "myetherwallet" (<https://www.myetherwallet.com>)

Check the SS balance after transaction by

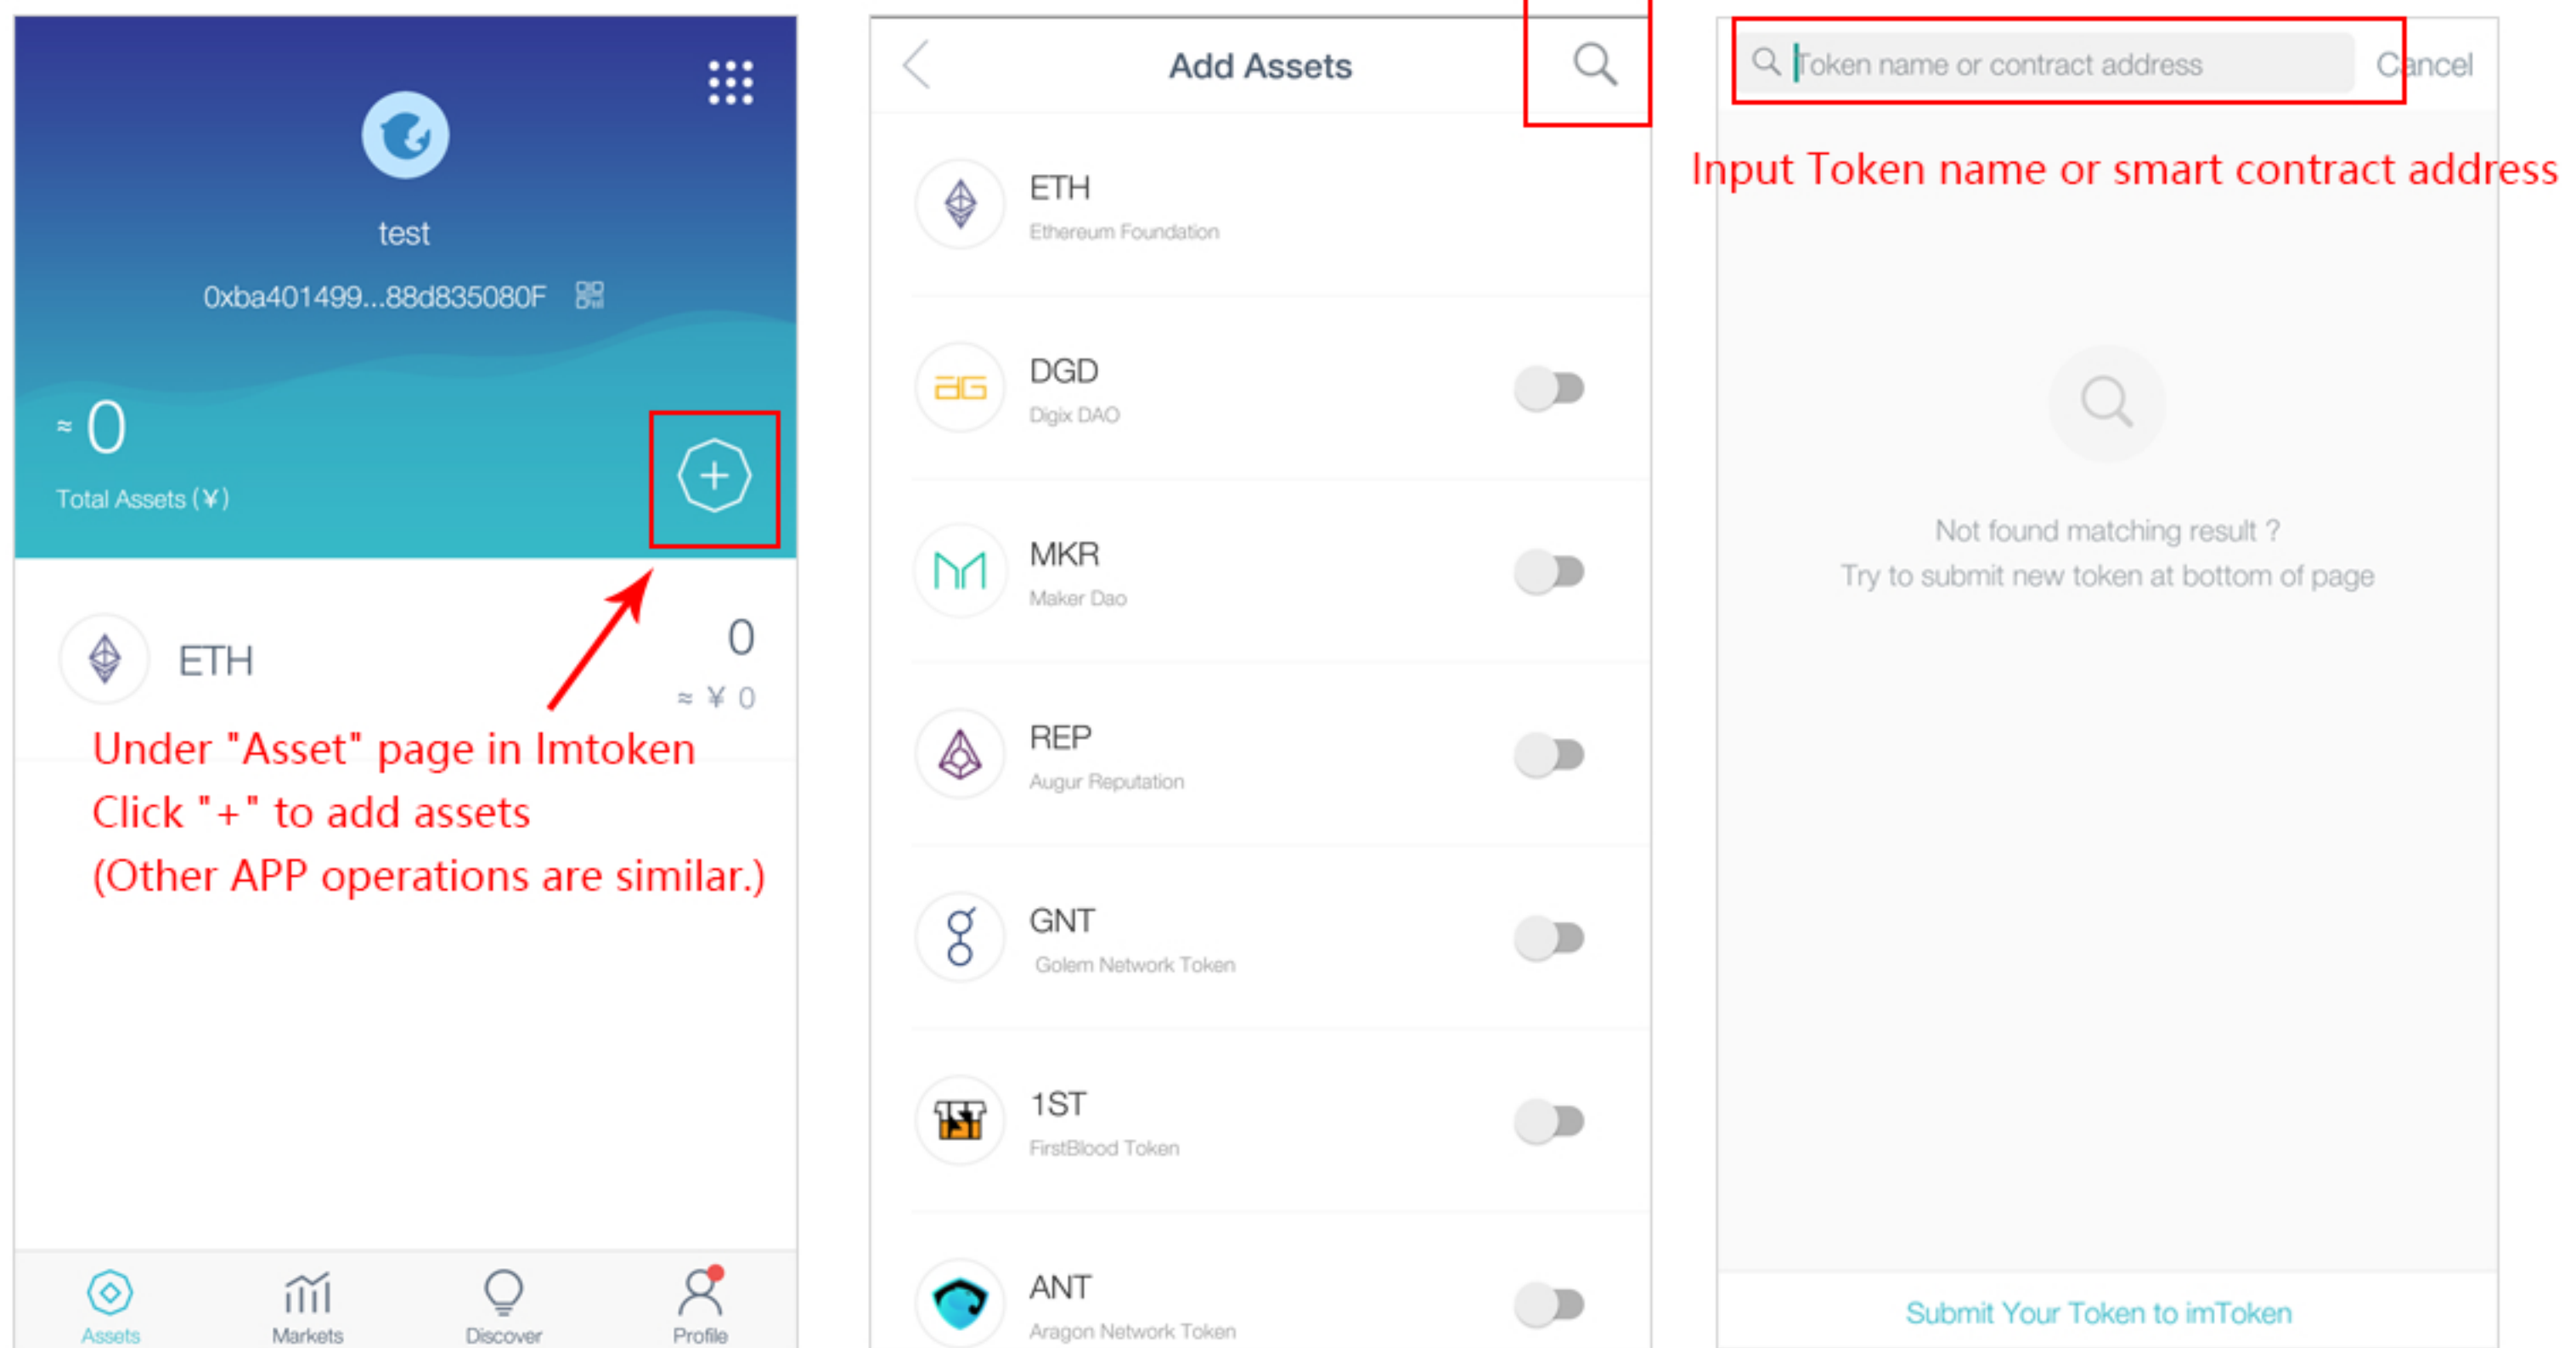

The screenshot shows the MyEtherWallet interface. On the left, the 'Send Ether & Tokens' form is visible with fields for 'To Address', 'Amount to Send', and 'Gas Limit'. On the right, the 'Account Address' and 'Account Balance' are shown. Below that, the 'Token Balances' section is highlighted with a red box, showing a search for a custom token. The search results show '0 ss'.

In the lower "token balance" position
Click "Add Custom Token" under
Input information
Contract Address: : 0xbbFF862d906E348E9946Bfb2132ecB157Da3D4b4
Token : Sharder(SS)
Decimal places : 18
Click "Save" to check your balance

2. For mobile Ethereum wallet such as "Imtoken"

Check the SS balance after transaction by

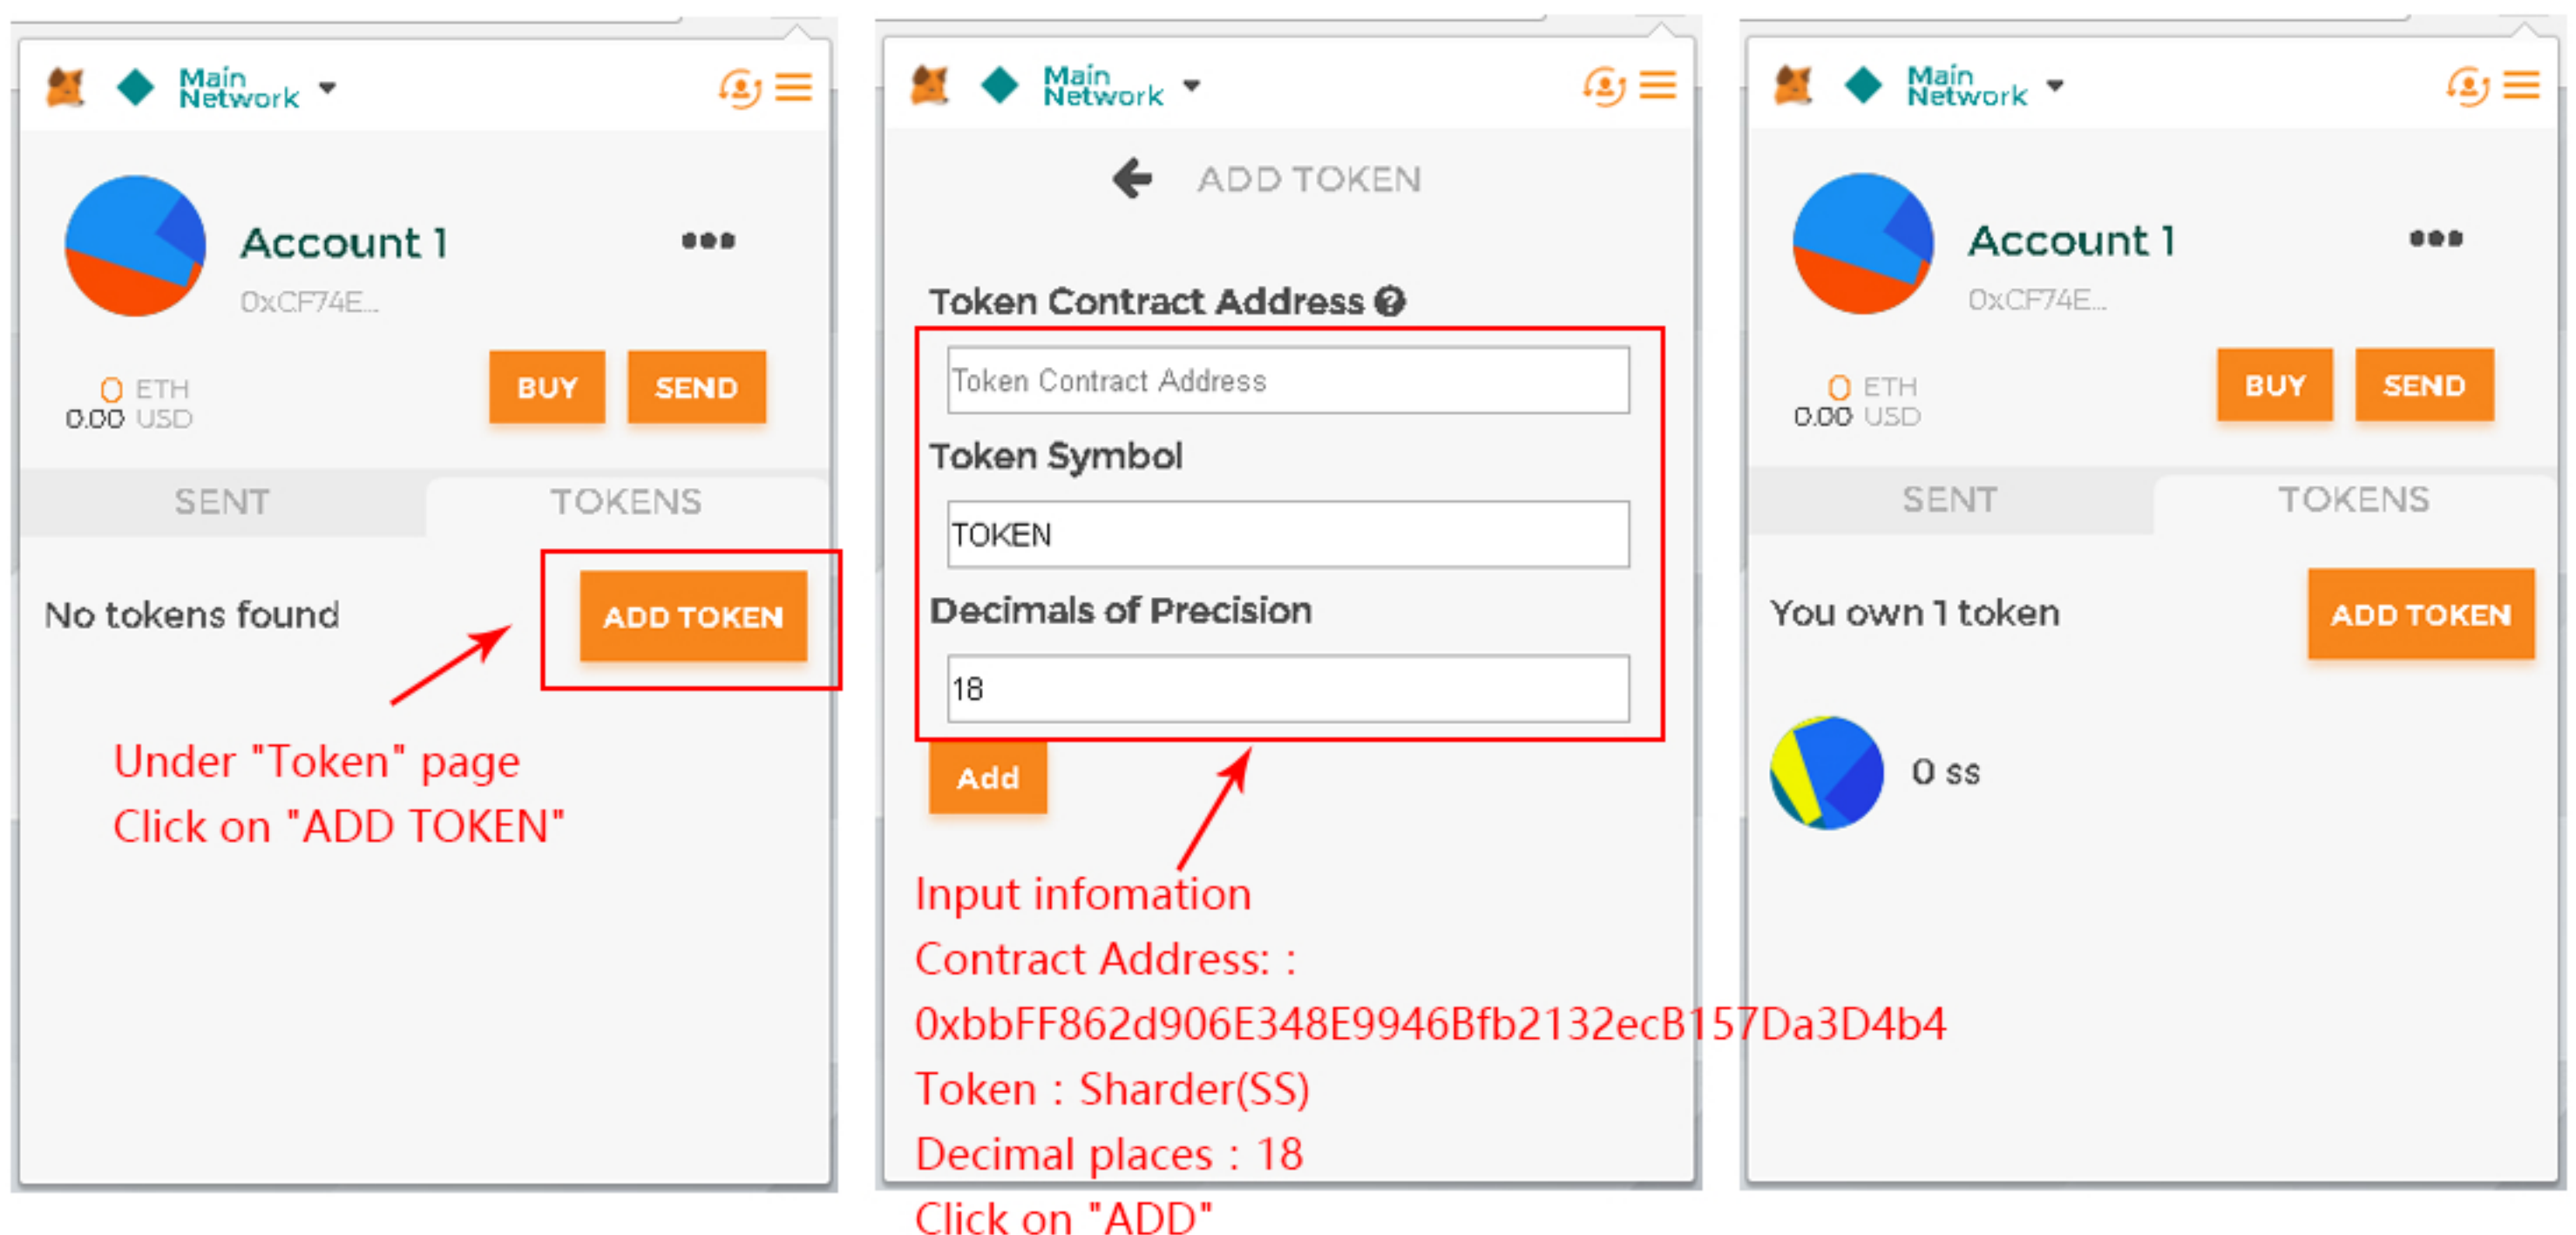

The screenshot shows the Imtoken mobile app interface. On the left, the 'Assets' page is shown with a red box around the '+' icon. On the right, the 'Add Assets' screen is shown with a search bar and a list of tokens. The search results show '0 ss'.

Under "Asset" page in Imtoken
Click "+" to add assets
(Other APP operations are similar.)

Input Token name or smart contract address

3. MetaMask For MetaMask

Check the SS balance after transaction by

The screenshot shows the MetaMask mobile app interface. On the left, the 'Account 1' page is shown with a red box around the 'ADD TOKEN' button. On the right, the 'ADD TOKEN' screen is shown with a search bar and a list of tokens. The search results show '0 ss'.

Under "Token" page
Click on "ADD TOKEN"

Input information
Contract Address: :
0xbbFF862d906E348E9946Bfb2132ecB157Da3D4b4
Token : Sharder(SS)
Decimal places : 18
Click on "ADD"
